Mr. Weisberg

How can there be any doubt that Oswald killed Tippit because the gun the police took from him was a .38 S. & W., four cartridge cases found in the area of the shooting of Officer Tippit and the F.B.I. determined that they had been fired from the gun Oswald was carrying.

Do you know, or have you heard of any contradiction to this statement, please let me know!

I believe that with such a thorough investigation as was conducted by so many people, there is bound to some form of reasonable doubt! Do you agree!
